## About Me

Specializing in SQL, Python, and Excel. Proficient in data cleaning, analysis, and visualization, with a strong attention to detail and communication skills. Effective in managing cross-functional teams and working independently. Seeking to apply my analytical skills to drive business insights and create comprehensive dashboards and reports.

## Skills

- **Data Analysis & Visualization:** Proficient in SQL, Python, Excel, Tableau, Power BI, and database optimization.
- **Statistical Insights & Communication:** Skilled in using statistical tools and conveying insights to teams.
- **Software & Project Management:** Experienced in Informatica, Microsoft Office, and project management.

## Experience

[UpWork Profile](#)

[GitHub](#)

**Pickleheads** Sep 2024 - Present

Data Analyst

Designed and developed **Excel-based dashboards** to track court and facility data across various U.S. cities.

Ensured data accuracy by leveraging **VLOOKUP** and other Excel functions to verify the number of courts and facilities.

**Pet Evolution** Aug 2024 - Sep 2024

Data Analyst

Automate monthly revenue reporting processes using **Excel and VBA**, significantly improving efficiency and accuracy.

Developed a **user-friendly revenue dashboard**, enabling to visually communicate their financial performance and engage potential investors and entrepreneurs more effectively.

## Education

2024

**IBM DATA ANALYST  
PROFESSIONAL  
CERTIFICATE**

Gained hands-on experience in metrics development and data modeling techniques through real-world project scenarios, utilizing tools like Excel, SQL, Python, and data visualization platforms.

2020

**LVIV NATIONAL S.G.  
UNIVERSITY OF  
VETERINARY  
MEDICINE AND  
BIOTECHNOLOGY**

Collaborated with peers on group and science projects, enhancing teamwork and cross-functional communication skills.

Developed and presented scientific reports.
